Comments: There have been several record holding game animals including mountain lions that were taken off of Jackson Mountain. I really cannot believe The Rangers would even consider damaging the habitat of the wildlife on Jackson Mountain.

The traffic alone of the trucks would affect game for miles when it's that constant. I vote NO and would be happy to join a class action lawsuit to stop this ridiculous proposal.

My cement contractor would not use Don Weber's cement or materials he said it was deficient in its makeup. I'll bet this would be the same.

Please contact me with lawsuit information I'll be happy to join in.
