Comments: Just wanted to give my opinion on all of the activity that the NF service is proposing on Jackson Mountain.

I do not support the gravel pit area work in the national forest. I believe that is not in the interest of preserving our natural resources and is going to cause damage that will harm the National Forest and natural resources etc. I also am very against any gates or entry from the National Forest onto Larkspur place, in San Juan River Village. This will allow more traffic into a private neighborhood and potential misuse of private property.
