

Data Submitted (UTC 11): 1/30/2023 5:00:00 AM

First name: Abraham

Last name: Palmer

Organization: Box Turtle Bakery

Title: Owner

Comments: Based on the latest International Climate Commission reports, the build-out of any new fossil fuel infrastructure is not compatible with the 1.5 degree Celsius target for warming. In addition the health of the forest is critical for it's carbon sequestration and other functions. I ask that the U.S. Forest Service select Alternative (1) No for "No Action," and reject the 11 proposed amendments.
