Comments: I object to the planned gravel pit on Jackson Mountain Road. Our house is within 2000 feet of the planned gravel pit. This means we will hear the constant noise while it is in operation, we will have tons of dust on our property and most importantly, we will have to deal with the dust in our lungs and both myself and my wife have breathing issues already. By building this gravel pit, we may be forced to sell. This is not fair. There are plenty of alternative places to build this gravel pit.
