Comments: I have recently relocated from TX to Pagosa full time. I was planning to enjoy nature, outside clean air, and starting a new life here. I am an avid mountain biker and live nearby the current Jackson Mtn. trails. I was excited about the new expanded trail system, but now reading about the proposed gravel pit that will share the area, I can't imagine breathing polluted air as I enjoy those trails.

My mother has a compromised immune system and has trouble breathing as it is. I moved here in part to be closer to her so I don't want anything to jeopardize her health in any way. I know there are alternate sites to put this gravel pit; please consider said sites before constructing this pit next to our neighborhood and the trail system I want to enjoy for many years to come.
