Comments: Overall these projects are well thought out, beneficial and very much needed. My primary concern is the re-location of the Goodwin Lake Trail which will increase a round trip hike to Goodwin Lake or Jackson Peak from the parking lot by almost 1.5 miles. While that doesn't sound like much, the Goodwin Lake hike in particular, is popular for local families with young children. I'm concerned that extra distance will put it out of reach for a pleasant day hike for this category of people.

Secondly I don't think parking spaces for 12 vehicles is enough at that trailhead. After you improve the access there will be quite a few more vehicles wanting to park there on a regular basis. I have found that after navigating the very difficult drive to that trailhead with the hazardous road conditions, there are often more than 12 vehicles parked there on a summer weekend. Improve the road and access and it will be far more.

Thank you.
