First name: Esterina

Last name: Bodarky

Organization:

Title:

Comments: It has become increasingly apparent that the maintenance and safety of pipelines are highly lacking. The various incidents of spills and contamination without proper remediation are too common. Therefore, it is not wise or prudent to continue the expansion onto public lands. This acreage was established to be pristine and available for the continued enhancement of wildlife, and clean waters. It should be your prime directive to protect those lands, that wildlife, and that water.
