Title:

Comments: I am opposed to the logging of the The Green Mountain National Forest's Telephone Gap Integrated Resource Project. This is a healthy forest up to 160 years of age. It is home to federally protected species including the Northern long-eared bat. The project blatantly ignores President Biden's Executive Order demanding protections for these mature and old forests,. This timber sale is a menace of national proportions to our climate and biodiversity. I hope you will reconsider logging this important carbon source and protect our planet.

Sincerely,

Debra Stoleroff

Plainfield, VT
