Comments: This is such a bad idea. People want their forests protected and preserved. Cutting down old growth is criminal. It upturns the forest's ecosystem, deprives wildlife of its natural habitat, and destroys the soil. Trees naturally clean the air that we breathe. We are in a climate crisis, we need trees. Just this week in NH two days of minus 20 degrees followed by 45 degree days. Preserving our forests is one of the best ways to try to turn this climate disaster around.
