Comments: Thank you for finally working to fix the Curtis Canyon Road. It has been needed for years. This is one of our favorite areas for family recreation and hunting.

I am saddened that you want to decommission the Goodwin Lake road though. I feel that the Forest Service lets things fall into such bad shape that they choose to close access instead of keeping it open and maintained. I am old enough to remember when the old Goodwin Lake trailhead was closed for the same reason. It does make hiking with younger kids to a great destination harder with longer trails.

If improvements are being made to Road 30444 I would like to see it widened a bit to make getting pass other vehicles safer.

Thank you.
