Title:

Comments: It is vitally important, for the health of Vermonters, all New Englanders, and really, everyone, to leave these forests alone. We do not know how to "manage" them, to say nothing of deciding that it's better to cut them down than to leave them alone for habitat survival, carbon sequestration, etc.

Please don't listen to the opinions of people that have ANY financial interest in this project; they cannot be objective.

Thank you.
