First name: Christine

Last name: Brabender

Organization:

Title:

Comments: This project is morally reprehensible in light of climate emergency & age of trees which store more carbon. Also, the project is in violation of Biden's executive order. Moreover, the project risks harm to endangered bat, headwaters & wildlands. In other words, the project is all kinds of wrong & must be stopped. NFS withdrew timber sale in Oregon & thus precedent exists to do so in this case & with very good reasons.
