Title:

Comments: I have seen these sorry excuses for land management before. Make no mistake, this is 100% a logging operation for profit of the lumber. Nearly 12,000 acres will be wiped out, with no regard for the health of the forest, animals, or ecosystem. The entire premise of what they plan to do is all nothing but lies. If you allow this to happen, you will see for yourself, what I'm talking about. But that will only be after it's too late.
