Comments: I'm writing in regard to the proposed clearcutting in the area of Pole Creek. This area is used by MANY people in the state, as well as out of state people. I believe this to be the MOST used area of the Bighorns, and certainly for cross country skiing and sledding. This is a beautiful area enjoyed by many and therefore clearcuts should NOT be done in this area and will devalue the experiencing of our beautiful Bighorns. I believe any clear cutting should be anywhere BUT the designated camping, skiing, snowmobiling areas and should be done where there are no such designated areas. It's just common sense!
