First name: George

Last name: Jennings

Organization: Ore-Cal Resource Conservation and Development Area Council

Title:

Comments: Ore-Cal Resource Conservation and Development Council fully supports this project, the alternative is the only alternative, No Action is deemed catastrophic in our opinion. Our suggestion is for the the USFS top expand the acres treated or dead tree removal located in the project within any WUI areas or ingress/egress routes to communities and residential areas be expanded to 5 miles. Additonally, please plan and fund follow up prescribed fire within 5 years of treated areas where tree planting has not already occurred.
