Title:

Comments: Thank you for the opportunity to comment on this project. I would like to see improvements to facilities take into account local recreation opportunities, especially in winter. To facilitate public access to winter recreation opportunities I would like to advocate for improvement of trails and creation of new trails that are part of an interconnected network, and wide enough to allow for ski grooming equipment.

Specifically I would like to promote inclusion of the following features:

1. The Steep Creek Intertie to connect the Dredge Lake trail system and the Powerline & Under Thunder Trails.
2. Lake Shore Trail built wide enough for ski grooming equipment (12 feet).
3. Mendenhall River Bridge.
4. Dredge Lakes Loop built wide enough for ski grooming equipment (12 feet).
5. Skater's Cabin Parking described in alternatives 5 - 7.
6. Tolch Rock Spur Trail.
7. West Glacier Trail Ski Loops - keep the "high" and "low" loops built wide enough for ski grooming equipment (12 feet).

Thank you.
