Title:

Comments: Dear Forest Service Personnel:

I have vehement objections to the MVP . Our environment is being degraded all over the world by Industrialization and development. You all know this.

The extensive damage to trees, soil, wildlife and water is NOT WORTH IT . Please be forward-thinking and consider the BIG PICTURE, that our beautiful planet is dying due to Projects similar

to the MVP.

DO NOT APPROVE THE DAMAGING AND IRRESPONSIBLE MOUNTAIN VALLEY PIPELINE .

Very sincerely, Rachel B. Johnson
