Title:

Comments: I am an avid Mt Biker, Hiker, and love this beautiful valley we live in!

I would also love to see more options for trails to enjoy these activities in Archuleta County (Jackson Mt Project)

What I enjoy most about being outside is the peace it gives me. Having a gravel pit smack in the middle of this beautiful, peaceful landscape would be awful for every reason. Not to mention the poor air quality it would create! The dangers on a FS road would increase with the big trucks that have poor visibility on a FS road with Bikes & Cars!

I realize we are in need of a non commercial gravel pit, however there must be a better place to put this, that doesn't conflict with the health & well being of a project that was formed way before the thought of a gravel pit.

Please consider other options to put this gravel pit.

Thank You!

Chanel
