Comments: I live facing the northeast side of Bolivar, and every day I am faced with sadness and grief as the forest service contractors continue to clearcut/shave across the entire mountain... and with a very ugly straight line all the way down on the northwest side... even worse. Truly a disgraceful decision that must have been made by people who don't live anywhere around here. Stop this madness, stop the shaving, stop the clearcut and fix the ugly gash of a straight vertical tree line going all the way down the mountain. Please replant. If you lived here you would never have done it this way. A disgrace!
