Comments: Dear Government Officials,

I'm contacting you from Baltimore, Maryland (zip code 21209) urging you to block construction of the Mountain Valley Pipeline in the Jefferson National Forest. This project has already severely damaged clean water sources across Appalachia, threatening local drinking water supplies and resulting in over 300 environmental infractions. Though I am living in Baltimore, my roots are in Appalachia, and I am alarmed at the way these treasured lands are being ruined by the fossil fuel industry. We must protect our land, our water, and our people.

Please protect the Jefferson National Forest and select Alternative 1, the No Action alternative, and reject any changes to the Forest Plan. Thank you.
