Comments: Hello, I'm contacting you from Maine, a state with much forested land, urging you to block construction of the Mountain Valley Pipeline in the Jefferson National Forest. This project has already severely damaged clean water sources across Appalachia, threatening local drinking water supplies and resulting in hundreds of environmental infractions. As you are well aware, clean water is becoming a scarce commodity. Also, our country should be focusing on clean energy sources. Please protect the Jefferson National Forest and select Alternative 1, the No Action alternative, and reject any changes to the Forest Plan.

Thank you.
