George Washington & Defferson National Forests
Dear Mr. Wilkes and Others Whom It May Concern:
I am a resident of Roanoke County, VA and strongly urge the USDA Forest Service to NOT amend the Forest
Plan to accommodate construction of the Mountain Valley Pipeline and consequently allow significant and irreparable damage to the land, water, air, flora, and fauna, including protected species.
MVP has continued to omit, ignore, and distort critical environmental data provided by numerous, highly qualified and unbiased experts since the beginning of this ill-conceived, inadequately planned and irreparably destructive
project. Please do not allow any further damage to be done to our precious resources.
