Comments: There are so many proposals that it's hard to narrow down my comments. In general, I would like to slow down the pace of development so that not only tourists but locals can enjoy this pristine area. No motorized vehicles on the lake, widening paths, if necessary, to 4 feet. I am not sure how the facilities across from the visitor center would be serviced if motorized vehicles were used.

There seems to be a lot of bells and whistles and I would like to see minimal change. Think of European countries with their "slow" movement for food or visitors to keep the character of the place people want to visit.
