Comments: Thank you for the opportunity to comment on the MGRA SDEIS process.

I have enjoyed what is now collectively called the Mendenhall Glacier Recreation Area for over fifty-five years. Over the last ten years, I have used the area once a week on average for hiking, biking, skiing and sight seeing. It always amazes me that we have such a beautiful and adventurous playground in our backyard! I support Alternative 5 because it has the most balanced approach to making the area accessible to visitors and locals alike.

Respectfully,

Craig Good
