Comments: \*If the gravel pit comes to fruition how much money will it cost the county therefore taxpayers?

\* From where will the water that is needed come?

\* What will be the impact on the surrounding ground water? Does it have the potential for a negative impact on humans and wildlife?

\* Of the 40+ gravel sites in Archuleta county that were documented in the Fort Lewis Collage study have been assessed for a gravel pit and how do they compare for cost, accessibility, and impact?

\*How will safety of the the many hikers, bikers, and campers that use the Jackson Mt. road and surrounding roads and trails be insured?

\* What will be the impact of all the additional gravel trucks going through the middle of downtown Pagosa? Safety of pedestrians? Pollution? Noise?
