First name: Elsie

Last name: Fichman

Organization:

Title:

Comments: I moved from a NYC suburb with my family 14 years ago to Vermont. We moved to flee the never ending destruction of all things natural, unchecked development gone wild.

The Telephone Gap project would completely disregard the fact that that the forest sited is rapidly accumulating carbon and could store two to four times more carbon if allowed to grow old... clear cutting would put a stop to that.

I do not agree nor approve of such action.

Elsie Fichman

Norwich, Vermont
