Comments: I am interested in the Jackson Mountain gravel pit because it affects my use of the mountain. I would like the gravel pit to continue because our roads are not amazing, and it would be nice to have our own supply of gravel. I love riding on Jackson Mountain with dust 2, and we could make trails around the pit. Making the gravel pit would benefit us as we could use the road work, and we can just make the biking trails away from the pit and enjoy the newly smooth roads.
