Comments: I am in support of the jackson mountain project because it will offer recreational experiences and the gravel pit will improve archuleta county roads. The gravel pit would positively affect roads by filling potholes, upkeep roads, and create new gravel roads. The proposed trails would create a fun way to get more people outdoors and in the jackson mountain area. A possible conflict for the trails is that horseback riders might not want mountain bikers on the trails. A solution is to make some trails specific to horse riders or mountain bikers. I feel that dust2 creating more trails would be very beneficial to mountain bikers especially the more advanced downhill trails.
