Comments: I agree with the proposed mountain bike trails for the Jackson Mountain project. However, I am against the gravel pit. The pit would cause noise and disrupt people who use the trails. I understand that a gravel pit would provide gravel for roads, but I think putting one in the middle of such a popular recreational spot is a bad idea.

I think the gravel pit should not be placed on Jackson Mountain. It should be put somewhere else. This way, mountain bikers and other trail users are not disrupted. If the gravel pit is put elsewhere, then we can still get gravel for our roads.
