Comments: I'm in support for the project because it gives good uses to the people of pagosa, although I don't like the gravel pit because it will disrupt activities in the area. I believe that the project can make more mountain bike trails and as a fellow mountain biker I believe we need more trails but with the gravel pit it can be disruptive to people enjoying like a walk or something. Although the gravel pit can fill in potholes and also make less mud in people driveways but sometimes the gravel can impact the environment if we take it from our mountains and it can destroy our environment.
