Title:

Comments: Hello, my name is Elisa King. I enjoy horseback riding. I have never been to Jackson Mountain but I have heard many things about it! I would like to go there to try the different activities available.

I agree with all of the projects and believe all of them will help in there own ways. The project in which the trails are involved are the one's are I agree with the most. It would be good to make the trails more safer and sustainable for the horses and the riders.
