Comments: Hello,

I am against this measure to create recreational trails. For many reasons, including this goes through a major corridor of migration for elk and deer, disrupting movement if wild gane, which is also a recreation of hunters all across the state/nation/world. Migration trails and corridors can be found on the CPW atlas.

The idea of seasonal closures would not be sustainable due to lack of staff and typically does not get enforced.

Also The planning of this trail system does not incorporate recommendations from CPW in "Colorado's Guide to Planning Trails with Wildlife in Mind.
