Comments: I'm writing in strong support of the U.S. Forest Services' proposal to provide sustainable recreation opportunities within the Telephone Gap IRP area. In particular, I support the 34.9 miles of trail construction, relocation, and designation managed for mountain biking, hiking, and cross-country skiing, projects that will provide critical trail connectivity for various user groups, including those on the Velomont Trail and Catamount Trail. I also support the addition of 3.1 miles of existing Long Trail to the National Forest Trail System at the pending South Pond acquisition.

Additionally, I support the Vermont Huts Association's application for a special use permit to construct, operate, and maintain a four-season hut within the footprint of the former lodge that was destroyed by a fire near South Pond. A hut in this location takes advantage of existing infrastructure and is ideally situated to host users of the trails mentioned above, creating a new point of access to the outdoors for trail users of all ages and abilities.

Outdoor recreation has provided a number of sustainable jobs, and the tourism to the state continues to drive growth in areas such as brewing. I strongly support the expansion of recreation opportunities in the state.
