Comments: As a resident of Bristol, Vermont, the Green Mountain National Forest is directly in my backyard and is a natural beauty that I appreciate every day. I am writing to express my strong opposition to opening of the Telephone Gap region of the Green Mountain National Forest near the town of Chittenden to logging operations. I do not want to see 12,000 of some of the oldest trees in the forest logged by commercial enterprises. We must leave the forest to it's own devices as nature intended. Please do not open the Telephone Gap region of the Green Mountain National Forest to logging operations.
