Comments: To whom it may concern,

I am super stoked about adding a trail system. We bike up snowball regularly and it would be incredible to have some trails on Jackson Mountain.

Would additional camping areas be made available as well?

Of all of the gravel pits that have been proposed, this one looks like it is the most out of the way. Where will trucks be driving? My preference would be not down snowball, but I imagine that wouldn't be the case anyway.

Thanks!

Kelly Lewis
