First name: Max

Last name: Petrovski

Organization: Jackson Hole Backcountry Rentals

Title: Owner

Comments: Please go ahead with the project. I feel that this is a large need of the tourists in the area to visit beautiful back roads and see the area not only in cars but also in Side by sides. It brings revenue to the county and town. We as rental company try to limit average customer travel to Curtis Canyon and only recommend it to families that don't want to travel far and long and want to enjoy the area for a half a day or so and have a picnic with the view.

There are plenty of reckless SUV drivers out there as well and banning certain vehicles is not a solution.

More signs warning people could help, and higher penalties for reckless driving. Also charging a customer extra tax could bring more revenue to the National Forest to help with maintaining the roads and their other needs.
