Comments: Fantastic proposal. 4 mile and Browns Creek would be great spots to start. Over the past few years, I've seen a huge uptick in season long campers in both areas. One area that is not addressed is how is this going to be enforced? Will there be additional signage, rangers, etc... Enforcement is lacking now, what will change when this plan is adopted? Appreciate you working on this. It's the right direction but won't make a difference those camping follow the rules.
