First name: Melissa

Last name: Reinauer

Organization: NA

Title:

Comments: I would like to see this project follow the new science of forest management as discussed in President Biden's executive order in the Spring of 2022. The National Climate Coalition ranks this project as one of the worst in the nation. What a distinction! It will destroy a lot of "old growth and mature trees" and it will take years to regrow. Older trees are important to our air, soil, and water quality.
