Comments: I am writing to object to the planned logging of the Telephone Gap portion of Green Mountain National Forest. National forests should be undisturbed and certainly not destroyed by logging. The forest in question is important habitat for an endangered species of bat (Northern Long-Eared Bat); it is also a source of headwaters for Otter Creek which flows through my town and is used for kayaking, canoeing, and fishing. Please do not allow the logging to proceed. Many thanks for your consideration.
