Comments: I'm glad the all conditions around Curtis Canyon are being addressed. I'm disappointed to read the intent to abandon instead of repair the stretch of road leading to the current Goodwin Lake trail head. As my friends and I get older and older adding another two miles to the trail to Goodwin Lake and Jackson Peak makes those hikes much more difficult for old bodies. I was looking forward to hiking those trails a few more times after the road was repaired but may not be able to if we need to walk.
