

Data Submitted (UTC 11): 3/6/2023 5:14:25 PM

First name: Lindsey

Last name: Kayman

Organization: Environmental Education Fund

Title: President

Comments: To whom it may concern:

Please do not allow any logging at Telephone Gap. It would be a dereliction of your duty to protect the trees for current and future generations, for the survival and health of the creatures that depend upon those forests, and to fight against climate change. Biomass is a false solution and it is creating huge problems. Watch the video Burned: Are Trees the new Coal to understand the issue- <https://www.pbs.org/video/burned-are-trees-the-new-coal-p9ztuw/>
