Dear Project Leader Lisa Bousfield,

Dear Supervisor Smith and Project Leader Bousfield,

I am a wolf advocate and I am majoring in wildlife management currently in California cause I want to work with wolves someday. You can NOT go coward with this logging project and endanger the Beckwourth Family. They are only one of 3 wolf families in California and it is OBSURD and OUTRAGEOUS that you would endanger this wolf family as they are needed to help with the recovery of wolves in our state. Wolves already are facing so many threats as it is and the last thing they need is something like this.

There are plenty of forests you can log that I'm sure maybe do need logging, however what we're not gonna do is endanger an endangered species that relies on this habitat to be able to survive. End this horrendous proposal

Sincerely

John.

Sincerely,

John Marchwick
