Dear Project Leader Lisa Bousfield,

I am writing to voice serious concerns over the Antelope Tennant Recovery Project.

My concerns are chiefly about the request that this project be filed using an Emergency Situation Determination, since the fires occurred in 2021.

The best projects occur when all stakeholders are given ample opportunity to review proposals. The public should be allowed more opportunity to comment on the plan.

I am also concerned with the planned salvage logging scope and scale.

Lastly, I believe a broader protection area should be included around the Medicine Lake Highland Traditional Cultural Property.

Thank you,
Faith Wilcox
