Dear Project Leader Lisa Bousfield,

I am writing to voice concerns over the Antelope Tennant Recovery Project.

I am concerned about the request that this project be filed using an Emergency Situation Determination since the fires occurred in 2021. The public should be allowed more opportunity to comment on the plan! The best projects occur when all stakeholders are given ample opportunity to review proposals.

I'm also concerned with the scope and scale of the planned salvage logging.

Finally, I strongly believe a broader protection area should be included around the Medicine Lake Highland Traditional Cultural Property.

Thank you,

Barbara Hannelore
