Dear Project Leader Lisa Bousfield,

I am writing to voice concerns over the Antelope Tennant Recovery Project.

I have concerns about the request that this project be filed using an Emergency Situation Determination since the fires occurred in 2021. I believe that the public should be allowed more opportunity to comment on the plan and that the best projects occur when all stakeholders are given ample opportunity to review proposals.

I am also concerned with the planned salvage logging scope and scale.

Lastly, I believe a broader protection area should be included around the Medicine Lake Highland Traditional Cultural Property.

Thank you,

Kathleen Boyle Magnuson

It is with the greatest concern for our environment that I ask you to consider this message!
