Dear Project Leader Lisa Bousfield, I am writing to voice concerns over the Antelope Tennant Recovery Project. I have concerns about the request that this project be filed using an Emergency Situation Determination since the fires occurred in 2021. I believe that the public should be allowed more opportunity to comment on the plan and that the best projects occur when all stakeholders are given ample opportunity to review proposals. I am also concerned with the planned salvage logging scope and scale. Lastly, I believe a broader protection area should be included around the Medicine Lake Highland Traditional Cultural Property.

This looks like boiler plate projects on several forests, almost identical to get the cut out. What's going on here?

Thank you,

Francis Mangels, 736 pine ridge, MT Shasta, CA 96067 530-926-0311
