Comments: We are writing to express our great concern and outrage over the prospective logging of the Great and beautiful areas of Vermont. Vermont and the surrounding States are full of beauty and are safe havens for people, pets, and wildlife. There are so many Native wild animals that call these forests and mountains their homes. Destroying the beauty of our mountaintops is unacceptable and life altering for so many soecies, including people. This is not what people come to Vermont to see. We travel to and live in Vermont because of its beauty and tranquility. Please do not plan to allow this logging to occur. Humans misguided actions such as this is what is the ruination of a healthy ecosystem and sustainability of life on Planet Earth. We need our unspoiled environments. We need to respect and protect Mother Nature and all of her inhabitants who call it home. All living beings that inhabit these lands and mountains and waterways matter, and need to be considered and thought through carefully and intelligently.
