Comments: I oppose the full winter closure proposed for Granite Mountain. Granite Mt should be open for all people, motorized and non motorized. Right now it is used by a few select rich people that can afford to Cat ski. From what I understand only 60 people cat skied last year. This area should be open to all like the other cat ski areas, not just a select few.

How are you going to allow snowmobiles access to the upper areas not closed at this time before the cat road is cut in mid January??

You talk about conflict, but if Granite Mt was open to all there would be no conflict and the back-country skiers that use snowmobiles would have another great area to ski.
