Title:

Comments: I am 100% against this project.

I bought the land I live on only to discover years later that it is less than a mile as the crow flies from a Superfund site created by corporate mining malfeasance

No matter what a corporation promises in terms of cleanup or what type of bond they post the damage caused by projects like this is never-ending.

The destruction is forever.

Failing disapproval of the project I demand that a full EIA be done prior to any approval.

Please protect our public lands.
