Comments: i am in support of the granite mountain closure as a permanent closure, and the bear basin closure as a permanent closure. perhaps if these two areas are permanently closed in a winter travel plan, it will hopefully educate the conscientious motorized community to have respect with these closures. especially if these closures are marked on a permanent winter travel map.

there seems to be little respect to 'closed' areas at this time with the influx of motorized locals and tourists into this valley. hoping that a winter travel plan will bring some respect.
